Unclassified

Correction

The tanks were not seized as they were empty. The owner had to get the trailer towed back to the GTA and received \$3000 in fines.

Subject: Successes today

Steve,

Successes today

- 1) We re-deployed the Traffic Unit to the bridges to start truck enforcement this morning as a migration strategy for the convoys coming from Quebec to Ottawa at the MacDonald Cartier Bridge. Reduced traffic to one lane for inspections. Traffic making it through the inspection point was diverted east on St Partick away from the downtown core.
- 2) 300 vehicle Quebec Convoy got backed up at the bridge as result of the OPS Traffic enforcement and was successfully divert off the 50 Hwy by SQ into Gatineau.
- 3) Very large Convoy from Montreal that was 20 kms long was diverted off Hwy 50 into Gatineau using same technique by OPS Traffic Unit at MacDonald Cartier Bridge.
- 4) Traffic Unit conducted traffic stop on a large concealed fuel tank in a dump trailer. This was one of the main trailers delivering fuel to Coventry site. The fuel tank was seized.
